MUSINGS

'A family that fails to respect and cherish its grandparents, who are its living memory, is already in decline, whereas a family that remembers has a future. A society that has no room for the elderly or discards them because they create problems, has a deadly virus; it is torn from its roots. Our contemporary experience of being orphans as result of cultural discontinuity, uprootedness and the collapse of the certainties that shape our lives, challenges us to make our families places where children can sink roots in the rich soil of a collective memory.'

Pope Francis, Amoris Laetitia 193
